## ARTICLE INFO

## Article history:

Available online 5 November 2008

With respect to our paper published in the October 2007 issue of this journal, “Ethnobotanical survey and antibacterial activity of some plants used in Guinean traditional medicine” (Magassouba et al., 2007), some mistakes have been made in a table of this article. The corrected table is given below (Table 1).

**Table 1**

Plants used in Guinean traditional medicine to treat infectious diseases, including sexually transmitted diseases.
